Ready for a musical trip to 1960s Jamaica? Get ready, get set: Sir Jay & The Skatanauts will take you there! The 10-piece outfit from Switzerland and their horns-driven, highly explosive and danceable Latin, Jazz and Rhythm & Blues infused offbeat draws direct inspiration from the founders of Ska music with the likes of Don Drummond and Tommy McCook & the Skatalites. Led by Sir Jay, the Skatanauts are devoted to the authentic beat that conquered the world in 1964. Performing exclusively original compositions, their raw and honest approach to entertainment – which can be heard in every tone – strikes a nerve with young AND old. Their mission is quite simple: to make you move and groove – for days and extra days!
